## PRODUCT APPLICATION

**CleanEase Li™** can be used, but is not limited to the following areas: concrete floors, brick, split-faced block, stucco, tile, etc.

SealSource recommends discussing a proper maintenance program with our Technical Department.

## COVERAGE

Apply as needed.

## DRYING TIME

As soon as the surface dries.

## SURFACE PREPARATION

Remove any excess material or debris for easier cleaning.

## PERIODIC MAINTENANCE

**CleanEase Li™** should be used as often as the surface warrants.

## STORAGE & DISPOSAL

Do not freeze.

## PRODUCT APPLICATION

1. Remove any excess material or debris.
2. Apply the material with a mop, scrubber, etc.
3. **Dilution-Light Dirt:** add 1 ounce of **CleanEase Li™** per gallon of water in mop bucket or automatic scrubbing machine.

**Dilution-Heavy Dirt:** Add 2 ounces of **CleanEase Li™** per gallon of water in mop bucket or automatic scrubbing machine. \*Let solution stay on the surface for 5-10 minutes.

4. Scrub with brush to loosen dirt.
5. Pick up dirty water and rinse with clean water.
6. Apply the **CleanEase Li™** as often as the surface warrants.

## CLEAN UP

Rinse mop or flush scrubber with warm water
